Some helpful information about emergency responder radio coverage...

- Required by fire code in certain buildings to ensure reliable radio coverage during an emergency. Check with your provider for specific requirements.
- Two most common system types:
 - DAS = Distributed Antenna System
 - BDA = Bi-Directional Amplification
- Systems are required to be inspected, tested, and maintained annually.
- It is the owner's responsibility to ensure fire code compliance.

The list of certified companies above are those that the City of Marysville and Marysville Fire District have on file, and are not inclusive of all companies that may be certified. This list is not intended to recommend companies but to provide guidance to businesses looking for a service provider. The list will be updated as new information is obtained. The City of Marysville and Marysville Fire District make no representation that this information is accurate or up-to-date. You are responsible to verify this information. Companies can call the Marysville Fire District at 360-363-8525, to be considered for addition to this list.
