- Fire Sprinkler Systems must be inspected, tested, and maintained annually by a licensed and certified technician.
- It is ultimately the owner's responsibility to ensure the sprinkler system is up to date and working properly at all times.
- Insurance companies review fire system records after an incident. It is very important to keep your system compliant and up to code.
- Your contractor should submit their reports in a timely manner to TEGRIS, which is a third party tracking software used by the Fire Marshal's Office to ensure compliance.

The list of certified companies above are those that the City of Marysville and Marysville Fire District have on file, and are not inclusive of all companies that may be certified. This list is not intended to recommend companies but to provide guidance to businesses looking for a service provider. The list will be updated as new information is obtained. The City of Marysville and Marysville Fire District make no representation that this information is accurate or up-to-date. You are responsible to verify this information. Companies can call the Marysville Fire District at 360-363-8525, to be considered for addition to this list.
