

**MARYSVILLE FIRE DISTRICT
RESOLUTION 2021-004**

**A RESOLUTION AWARDING A PUBLIC WORKS PROJECT
AND DECLARING MATERIALS SOLE SOURCE**

A Resolution; authorizing the awarding of a contract for a Public Works Project for the upgrading of the Locution Alerting Systems in two Fire Stations, and; authorizing the purchase of the materials and equipment for such Public Works Project, and; declaring the materials to be of 'Sole Source' as allowed in RCW 39.04.280.

Whereas, the Marysville Fire District (MFD) has need and desire to upgrade the existing Locution Alerting systems in two fire stations, and

Whereas, a sealed bid solicitation was properly advertised and a single bid received from Sequoyah Electric, LLC, and

Whereas, such bid met all the requirements of the solicitation but for taking exception to the provisioning of Locution material and equipment specified, and

Whereas, Locution material and equipment necessary for the Public Works Project (Project) is only available from and through the manufacturer, Locution, and

Whereas, the Locution Alerting System is currently installed and operational at all MFD Fire Stations, and

Whereas, the Locution Alerting System is the adopted and only 'in-station' alerting system utilized by the regional dispatch center to which the MFD utilizes for emergency call taking and responder alerting, and

Whereas, retaining the current Locution System installed provides for continuity of operation, maintenance, service, customer support, and parts availability, and

Whereas, the RCW 39.04.280 allows for the waiving of competitive bidding for purchases that are clearly and legitimately limited to a single source of supply,

Therefore Be It Resolved:

1. The Board finds that Locution Alerting is a Sole Source provider of the necessary equipment and materials for the Alerting System Upgrade project.
2. The Bid for the installation of the upgrade for the Locution Alerting Systems for two fire stations be awarded to Sequoyah Electric, LLC, as submitted.
3. The Equipment and Materials as outlined necessary by Locution Alerting be purchased directly by the MFD for installation by the awarded contractor

ADOPTED at the regular meeting of the Board of Directors of the Marysville Fire District this 6th day of October, 2021, by majority vote of the members.
